

Community Partners

Community Partners are individuals or groups who provide financial or in-kind support to an organization, event or activity through the provision of donations, products or services. They share common missions, interests, values, and messages – thereby achieving together what could never be accomplished separately.

Purpose

The Tri-State Diversity Council establishes Community Partnerships in order to:

- Fulfill our mission
- Build our reputation within local communities
- Provide the administrative grounding needed to fund, develop, and support our initiatives

Benefits

Organizations joining the Tri-State Diversity Council as Community Partners receive the following benefits:

- Access to networking opportunities, diversity best practices, knowledge, and research
- Opportunity to submit articles for the Tri-State Diversity Council's quarterly newsletter
- Opportunity to promote events and programs that strive to promote diversity and inclusion efforts on the Council's social media outlets (i.e., LinkedIn, for example)

Requirements

To become a Community Partner, an organization should contact their local chapter's Community Partnership committee chair(s). TSDC community partners are expected to provide the Council with in kind support for chapter meetings and events when able to do so. This support can include:

- Media and branding opportunities on websites, newspapers, and magazines
- Venues, name tags, food, beverages, and other items for meetings and events
- Volunteer support for events throughout the year
- Invitations to events that support diversity and community efforts, as well as networking opportunities
